user	user	user@gmail.com	Audit	Yes

PASSCHIP® TIME & Attendance

Provides a powerful, modern and flexible workforce management solution that connects to any type of access control system

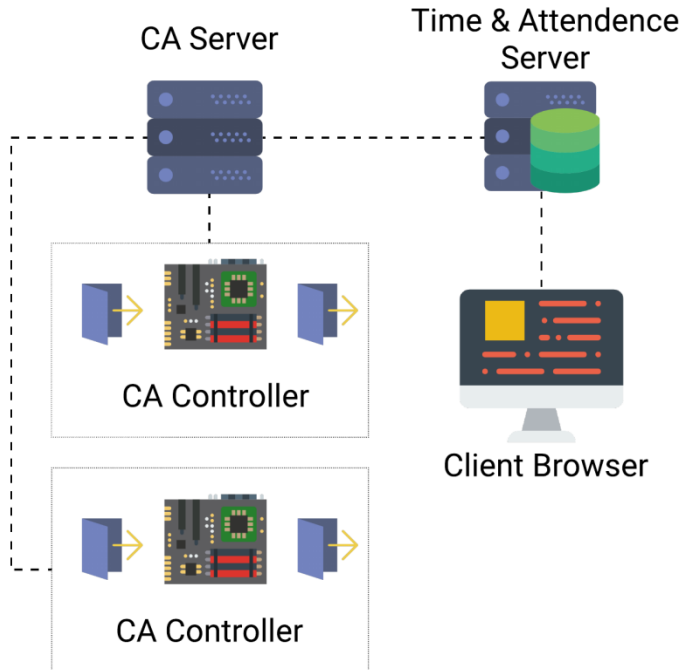

Functions

- Tracks working hours, absences and overtime
- Design and manage work schedule
- Incidents (sick leave, vacation, doctor, etc.)
- Gives a global view of the employee activity on the site.
- Optionally it allows employees to see their own schedule and information, or team managers to manage their team's schedule.
- Generates reports that can be viewed on the platform or exported in .xls format that can be customized to the user's needs

Benefits

- Tailored solution for integrating with the current control access system
- Proven long life service
- May be integrated with third parties security software, including biometric applications
- Excellent substitute to human guard patrol services
- Can be hosted totally on-site
